

Dear fellow citizens and residents of CT;

As an active member of my community, the town of Fairfield, I care about the importance of each resident in our town to be part of the decision making process for what happens in our town and trust everyone's reasons for decisions such as use of property. We each know what has worked and what the community needs to be useful and positive for all members of the community. We all understand the need for affordable housing and have successfully satisfied that need. That will be ongoing and it is not only not necessary but detrimental for state sanctions to be placed to make these decisions for us.

I urge everyone in the state legislature and other parties to NOT vote in favor of bill HB5429. If approved, this bill and its ramifications would have a permanent negative effect on our individual rights and the way things are working as a true democracy.

Sincerely,

Melanie Smith
